

Organic Chemistry Bingo

Achiral	Fire hazard	Assign charges	Kinetic Product	Wrong # e-
Carbocations rearrange	Meth is brought up during lecture	Gimme points that seem harder than they appear	Markovnikov without rearrangement	Zaitsev Product
Pushing electrons	E or Z	Cis or trans	Benzene	Halide
Assign charges	R or S	Carbon (Free space)	Alkyl halide	It depends
Sterics and electronics	Same molecule	A rule you don't know shows up again	Markovnikov with rearrangement	Bad for environment
Chair or boat	Conformational Enantiomers	Diastereomers	Chiral	Time out
Conformational enantiomers	Causes non-cancer health problems	Zaitsev Product	4 degrees of unsaturation	Peak at __

Organic Chemistry Bingo

It depends	Resonance and induction	Texas carbon	Syn or anti	Meth is brought up during lecture
Pay the instructor	Sterics and electronics	Confused Students	Kinetic Product	Halide
Pushing electrons	Benzene	A rule you don't know shows up again	Six carbon ring	Bad for environment
Cis or trans	Assign charges	Carbon (Free Space)	Fire hazard	Causes cancer
R or S	E or Z	Thermodynamic Product	Distilled to dryness	Causes non-cancer health problems
Achiral	Same molecule	Something widely believed turns out to be wrong	Causes explosions	Causes death
A book problem shows up on the test	Markovnikov without rearrangement	Chair or boat	Answer was simpler than it seems	Hyperconjugation
